SILVER SOLUTION. M. De Rothschild Wants Silver Kept at 86 Cents an Ounce Bimetailism Impor BRUSSELS, Nov. 29.-M. De Rothschild's proposals were submitted to the conference in the afternoon. They cover eleven printed octavo pages. M. De Rothschild argues at great length that bimetallism in Great Britain is absolutely impossible and suggests that the question arises whether it is not possible to extend the use of silver generally, and by this means assist in checking a further fall in values, Rothschild said he did claim that his proposals would prove a final solution of the question, but he did claim that they would prove a palliative. Summed up, his proposals are that America should

continue her present purchases of silver and the European powers should continue to buy an amount equal to Ch. 000,000 a year for tive years at 40d. If silver should rise above that price the purchases are to be immediately sus pended. It is expected that the proposals will be referred to a committee. The Portuguese delegates have been instructed by their government to act in harmony with the British representatives. It is stated that M. De Rothschild proposes to raise the legal tender of silver in England from £2 to £5. Great importance attaches to this pro-

"I constantly praise the merits of my Brace." I think them a wonderful thing.
Miss Mary Occumire. The Brace is a grand success. The lady would not part with it for any money, She has been suffering for eleven years, and has never found anything before that has been of any permanent benefit. — Mrs. M. L. Hummond. "For twelve years I have suffered with female weaklesses, and have found nothing that has relieved me as your Natural Body Brace has done. My limbs would give way so that I could not stand.

From the first two hours wearing the Brace I have been able to be on my feet. I have felt none of that faint feeling. I have none of that bearing down, so usual, and my back feels like a new back. In general I san so much better since wearing the Body Brace, I could not do without it now. My friends speak of how much better I am looking."—Mrs. Mary Connet. "I was afflicted for two years with a weakness of the abdominal organs, which disabled me for work much of the time, and made it impossible at all times for me to do much lifting. An ordinary day's work left me at night so weak that I could hardly get around. There seemed to be a breaking loose or giving way of some part of the bowels, with soreness and a general dropping down, producing great pain. It consulted in general weakness and failing health.

I consulted several physicians without finding any who seemed to understand my case. Note was able to give me relief. I took tonics and other medicines without benefit.

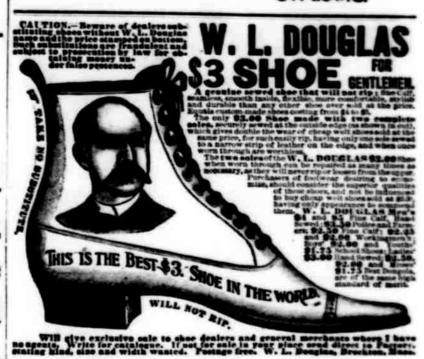

I have worn the Natural Body Brace one month. It has proven to be just the thing for me—exactly what I needed. It makes me comfortable. I have no pain. It enables me to work without difficulty. My general health is already much improved.—Janes L. Daily.
